**EV CHARGING STATION LOCATIONS**

1. **FERNWOOD ROAD CAFE**
   - 325 Fernwood Rd
   - No Fee Single 40 Amp Charger
   - 1/Level 2 Sun Country
   - 1J7T2 con 24/7

2. **THE RENTAL STOP**
   - 327 Rainbow Rd
   - No Fee Single 40 Amp Charger
   - 1/Level 2
   - 1J7T2 con 24/7

3. **SALT SPRING APPLE CO**
   - 529 Fulford Ganges Rd
   - By Donation Single 40 Amp Charger
   - 1/Level 2
   - 1J7T2 con 24/7
   - 1/Level 2
   - 1 Tesla
   - 1J7T2 con, 1 Tesla con

4. **FULFORD COMMUNITY HALL**
   - 2591 Fulford Ganges Rd
   - By Donation Single 40 Amp Charger
   - 1/Level 2 6E Durastation
   - J1772 con 24/7

5. **COUNTRY GROCER**
   - 374 Lower Ganges Rd
   - No Fee 40 Amp Charger
   - 1/Level 2 Sun Country
   - J1772 con 24/7

6. **MOBY’S PUB**
   - 124 Upper Ganges Rd
   - No Fee
   - 1/Level 2 Sun Country, 1 Tesla
   - J1772 con, 1 Tesla con 24/7

7. **SALT SPRING INN**
   - 132 Lower Ganges Rd
   - Inquire at front desk Single 40 Amp Charger
   - 1/Level 2
   - J1772 con 24/7

8. **ISLAND SAVINGS**
   - 124 McPhillips Ave
   - No Fee Single 40 Amp Charger
   - 1/Level 2
   - J1772 con 24/7

9. **ART SPRING PARKING LOT**
   - 100 Jackson Ave
   - By Donation 40 Amp Chargers
   - 2/Level 2 Sun Country
   - J1772 con 24/7

10. **SALT SPRING LIBRARY**
    - 129 McPhillips Ave
    - By Donation Single 40 Amp Charger
    - 1/Level 2
    - J1772 con 24/7

**TYPES OF EV CHARGING STATIONS**

**LEVEL 1**
Level 1 equipment provides charging through a 120 volt (120V), alternating-current (AC) plug and requires a dedicated circuit. Generally speaking, Level 1 charging refers to the use of a standard household outlet. On one end of the provided cord is a standard, three-prong household plug.

**LEVEL 2**
Level 2 charging refers to the voltage that the electric vehicle charger uses (240 volts). Level 2 chargers come in a variety of amperages typically ranging from 16 amps to 40 amps.

**LEVEL 3**
Level 3 charging, or DC fast charging, requires a more powerful grid connection than is built into private residences. Most DC fast chargers are found along highways. Not all EVs have onboard support for DC fast charging.

**PLUGSHARE**
PlugShare is probably the most popular EV charging site/app to date. It includes all types of charging stations (level 2, CHAdeMO, SAE Combo, Supercharger) and stations from various charging station companies/networks.
